#### Notes

- Store your ND Smart light pro+ in a warm, dry place when not in use, in order to prevent condensation build up.
- It is recommended that the ND Smart Light Pro+ be cleaned with a damp cloth after use.
- After use ensure all batteries are fully charged before you pack the ND Smart Light Pro+ away for the next trip.
- If the ND Smart Light Pro+ is not going to be used for some months then recharge the batteries every 2-3 months.
- The range of the ND Smart light pro+ is dependant on weather and environmental conditions.

### Environmentally friendly disposal

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately.

The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points. With this little personal effort, you contribute to recycle valuable raw materials and the treatment of toxic substances.

# 7 Support

### Newdirectiontackle.co.uk/support/

We are committed to providing you with the best possible products and services, but in the unfortunate circumstance that you have a complaint or our app has a bug which needs to be fixed, please get in touch with us straight away using our support center system.

In order to streamline support requests and better serve you, we utilize a support ticket system. Every support request is assigned a unique ticket number which you can use to track the progress and responses online. For your reference we provide complete archives and history of all your support requests. A valid email address is required to submit a ticket.
